

RLC Park Services has been inspiring young minds with the joy of the natural world for many years in the Provincial and Regional Parks they manage on Vancouver Island. Best known as the enthusiastic Park Naturalists at the Goldstream, Rath Trevor Beach and Miracle Beach Nature Houses, they specialize in facilitating environmental education for school groups all year round. If you've been to Goldstream to witness the amazing spectacle of the salmon run and had the opportunity to participate in a program, watch a salmon dissection, or visit the Nature House then you've already seen our Park Naturalists and their passion for salmon! RLC Park Services was overjoyed at the opportunity to become the Vancouver Island program providers for Stream of Dreams. We are looking forward to continuing to help a lot more Dreamfish swim onto a fence near you!
